

Let's look at an overview of the most important events from recent months in our project!

## 1. Intellectual Output 5

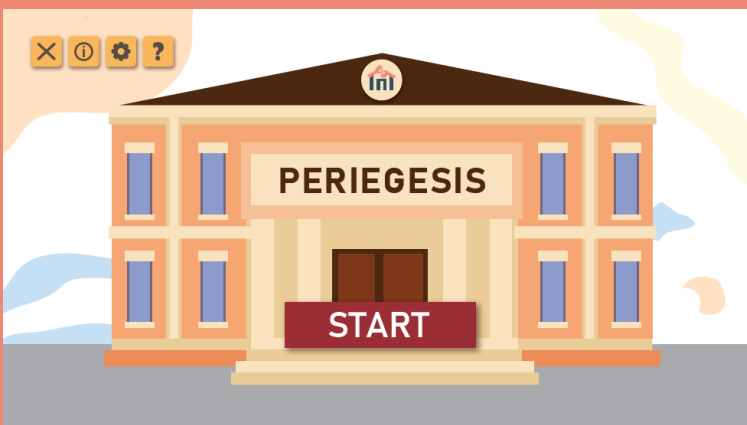

Great news: we've finished developing the serious game!

## The digital serious game

Each partner was able to present the serious game to museum staff in his country.

The feedback from the museum professionals taking part in the pilot test was all very positive!

If you want to practise your sign language skills and have some fun at the same time, take a look at the Periegesis project website!

Our videos in sign language are also available on the YouTube channel of the Periegesis project!

Just scan me!

## 2 Last Transnational meeting in France

Thanks to the partnership of the Periegesis Project with the Museum of civilization of Marseille, the Mucem.

Our last meeting took place in this magnificent setting!

All the partners were able to discuss and give their feedback on the pilot test summaries and their awareness-raising activities.

It was also an opportunity for us to meet one last time before concluding our great collaboration...

## Mucem Museum Marseille

After more than two years of collaboration, it's time for us to bring the Periegesis project to a close !

## And yes, all good things must come to an end!

On behalf of the Periegesis team, we would like to thank all the people and partners who have collaborated throughout this project and made it a success!

So.... Thanks you !

Periegesis team
