

Let's look at an overview of the most important events from recent months in our project!

1.

Thesaurus

We have finished our Museum Learning Thesaurus!

There you will find vocabulary for employees of cultural vaults and interesting theoretical chapters!

In a warm, summer atmosphere, we discussed feedback from museums, thus selecting the material for recording.

2

Meeting

This time we visited Turin to discuss the next step - making movies.

In August, we entered the filming set. Each of the partners recorded 150 films in their sign language.

3.

Movies

Videos for learning sign language phrases will also be found in our game. More on that soon!

What awaits us in the coming months?

- 1 Partners will have the opportunity to have another live meeting, this time in Greece.
 - 2 We will see the first version of our digital serious game.
 - 3 We will put the finished movies on the project website.
- and many other exciting events!
